PROFESSIONAL SUMMARY

MCA student specializing in Full Stack Web Development and Web-based Augmented Reality - a rare combination in early-career developers. Proficient in the complete JavaScript ecosystem including React.js, Node.js, Express.js, and MongoDB. Demonstrated ability to build production-ready applications with privacy-first architecture. National Rank 52 at NEC 2025 (IIT Bombay). Seeking to leverage technical depth and creative problem-solving in a challenging software engineering role.

ACHIEVEMENTS & LEADERSHIP

National Entrepreneurship Challenge (NEC) 2025 — IIT Bombay

- Secured National Rank 52 among participants across India in one of the country's most competitive entrepreneurship challenges.

Creative Director — Innovation Cell, Sanjivani University

2025 – Present

- Leading creative strategy and execution for university-level innovation and entrepreneurship initiatives.

EDUCATION

Master of Computer Applications (MCA)

2025 – Present

Sanjivani University, Kopergaon, Maharashtra

- Relevant Coursework: DevOps & Cloud Computing, Deep Learning, Advanced Computer Networks, Data Visualization & Modelling, Software Engineering

Bachelor of Business Administration – Computer Applications (BBA-CA)

2022 – 2025

K.J. Somaiya College, Kopergaon, Maharashtra

- Final CGPA: 7.89 / 10
- Coursework: Web Technologies, DBMS, Object-Oriented Programming, Software Engineering, Computer Networks

PROJECTS

Zipjy — Secure Ephemeral File & Text Sharing Platform

2025

Node.js · Express.js · MongoDB Atlas · Supabase · Tailwind CSS

- Built a privacy-first platform enabling anonymous sharing of files up to 75MB and text snippets with zero account creation — reducing share setup to under 30 seconds.
- Implemented Burn-on-Read functionality and configurable expiry controls (10 minutes to 7 days), ensuring complete data lifecycle management.
- Designed RESTful backend architecture with MongoDB Atlas for metadata and Supabase for secure temporary file storage; deployed with 99%+ uptime.
- Developed fully responsive UI with Tailwind CSS, optimized for seamless cross-device experience.

Web-Based Augmented Reality for Indian Heritage Monuments

2024

MindAR · AR.js · JavaScript · HTML5 · CSS3

- Engineered a browser-native AR system visualizing 3D models of Indian heritage monuments using real-time image tracking — no app installation required.
- Achieved sub-2-second AR trigger response using MindAR's optimized image target pipeline directly inside the browser.
- Created an interactive educational platform making cultural heritage accessible to students and tourists through immersive Web AR technology.

React.js · GSAP · Bootstrap

- Designed and developed a modern, animated developer portfolio with GSAP-powered page transitions and micro-interactions for a polished user experience.
 - Built fully responsive layout optimized across desktop, tablet, and mobile using React.js component architecture and Bootstrap grid system.
-

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, GSAP

Databases: MongoDB, MongoDB Atlas

Web AR: MindAR, AR.js, Browser-based Augmented Reality

Tools & Platforms: Git, GitHub, VS Code, REST API Design, Supabase

Methodologies: Agile/Scrum, OOP, Data Structures & Algorithms, Responsive Design

AI Tools: MidJourney, DALL·E, Runway ML, ElevenLabs, Canva AI, Notion AI

CERTIFICATIONS

- Software Engineering Job Simulation — JPMorgan Chase & Co. (Forage)
- Generative AI Fluency — NASSCOM FutureSkills Prime
- Entrepreneurship Awareness Programme — MSME Technology Centre, Government of India
